H. no. 566 / A Burji Patil Galli, Bhoj - 591263

SUMMARY

Electronics and Communication Engineering graduate with hands-on experience in Java, Python, SQL, Spring Boot, MySQL, and REST APIs through a full-stack internship. Experienced in software development, database integration, testing, debugging, troubleshooting, and problem-solving. Strong logical reasoning and communication skills, seeking an entry-level Analyst/Associate Analyst or Software Engineer role.

EDUCATION

Electronics and Communication Engineering
KLS Gogte Institute of Technology
12/2022 – 05/2026 | Belagavi
CGPA 7.71 / 10.00

Pre-University
Konnur PU College
06/2020 – 05/2022 | Yallatti
% 79.9 / 100.0

CBSE
KLE English Medium school
06/2019 – 05/2020 | Nipani
% 63.3 / 100.0

EXPERIENCE

Java Full Stack Intern
Genplus Training & Consulting Services Pvt. Ltd.
02/2026 – 05/2026

- Developed backend functionality using Java, Spring Boot, REST APIs, and MySQL.
- Worked on the Goals feature for goal creation, tracking, database integration, data storage, and retrieval.
- Developed and tested application functionality, contributed to frontend integration, and used Git/GitHub.

PROJECTS

Smart Black Box for Vehicles

- Developed a Smart Vehicle Black Box using ESP32 and C to record real-time driving data using GPS and MPU6050 accelerometer for location tracking and crash detection.
- Implemented automatic accident detection, post-accident analysis, and cloud logging of time, speed, location, and impact status.

WealthWise

- Contributed to a financial management web application for goal planning and tracking.
- Designed Spring Boot REST APIs and integrated MySQL for secure data storage and retrieval.

CERTIFICATIONS

JAVA Full Stack Internship
Genplus Training & Consulting Services Private Limited

KEY ACHIEVEMENTS

◆ **Smart Vehicle Black Box**
Achieved 100% functioning prototype for Smart Vehicle Black Box with reliable crash detection accuracy.

◆ **Java Internship Success**
Completed Java Full Stack Internship with top 10% scoring performance among participants.

SKILLS

Programming Languages
Java Python C SQL

Technical Skills
Spring Boot REST APIs MySQL HTML CSS React Git/GitHub

AI & Generative AI
LangChain, LangGraph (Learning)

Core Skills
Problem-solving Logical Reasoning Debugging Testing Troubleshooting

Communication
Verbal & Written Communication Team Collaboration

TRAINING / COURSES

Complete Agentic AI Bootcamp with LangGraph and LangChain (Ongoing)
